Colonel W.M. van Antwerp
Executive Office of the
Chief of Psychological Warfare
Department of the Army

Dear Colonel van Antwerp:

Please accept our sincere thanks for the careful, constructive review of the research papers on China which we sent to your office. Only with such helpful criticisms can we improve our research efforts.

I noted particularly your comment that the papers were considered to be excellent analyses but offered little or no synthesis. You will be interested to know that the working plan of the project, of which these papers are a part, calls for a major synthesis to be made in the form of a volume tentatively entitled [REDACTED]. We shall supply your office with copies of this volume as soon as they are off the press, which should be in early fall.
